Dear Service Provider:

You were recently sent a Recovery of Erroneously Disbursed Funds letter informing you of the need to recover funds for the Funding Request Number(s) (FRNs) listed on the Option Selection Worksheet attached to this letter. The Federal Communications Commission by its order FCC 00-350 (released October 26, 2000) has directed USAC to implement the funds recovery process from service providers who received erroneous funding amounts. Listed below are the options available to you to return the total 'Funds to be Recovered' amount as specified on Recovery of Erroneously Disbursed Funds letter you have been provided.

To allow USAC to recover these funds, you may choose one of three options listed below:

- 1. Remit to USAC the stated 'Funds to be Recovered' amount, within 30 days of the date of this letter.
- 2. Offset the stated amount owed to USAC by foregoing disbursement(s) on alternate valid funding commitments or pending funding requests for the same applicant for the same or alternate funding year, or
- 3. A combination of the above two options. The sum must equal the required recovery amount.

Please review the attachments, complete the Option Selection Worksheet, and return it within 30 days of the date of this letter. An instruction sheet has been provided as well as a listing of alternate FRNs with valid funding commitments available for offset. Following are specific instructions for each option:

- · If you select the cash payment option (# 1), please make your check payable to: "USAC Fund Recovery" and remit the full "Funds to be Recovered" amount and your completed Option Selection Worksheet to the REPAYMENT ADDRESS below.
- · If you select the offset option (# 2), USAC will offset the approved disbursement amounts from the first submitted invoices for the FRNs you indicated on your Option Selection Worksheet against the USAC recovery amount. You will be notified of the amounts on the invoices that have been approved and the funds have been credited as an offset. Once the USAC recovery is satisfied, any additional invoices submitted would be processed as usual, subject to remaining availability of funds for each FRN against which recovery has been processed. If you select this option, please remit your completed Option Selection Worksheet to the Whippany, NJ address indicated on the Option Selection Worksheet instructions.
- · If you select the combination option (#3), please indicate the amount of your cash payment on the Options Selection Worksheet, make your check payable to: "USAC Fund Recovery" and remit your check and your completed Option Selection Worksheet to the REPAYMENT ADDRESS below. The difference between the dollar amount remitted and the total "Funds to be Recovered" amount due to USAC is the remaining amount to be recovered as in Option 2 above that is, by foregoing disbursement(s) on alternate FRNs after work is completed and invoices are submitted to the SLD. The sum of both options must equal the total recovery amount.

If you select either Option 2 or Option 3 above, the following examples may help you understand how USAC will process submitted invoices to ensure accurate and timely recovery of funds. The offset methodology applies to both Service Provider Invoice Forms (FCC Form 474) and Billed Entity Applicant Reimbursement (BEAR) Forms (FCC Form 472). However, if USAC offsets an amount from an alternate FRN against the recovery amount, this action does not relieve you of the responsibility for offering discounts or reimbursements to the applicant under that FRN consistent with your certifications on the BEAR Form.

Example 1 illustrates processing of invoices that exactly offset the recovery dollar amount:

Adjusted FRN and Recovery Dollar Amount	Alternate FRN and Available Dollar Amounts	Invoices Submitted (Form 472 or 474)	USAC Applies to Recovery	USAC Pays
123456 \$1,000	123457 \$1,500	\$300	\$300	-0-
	123458 \$ 800	\$400	\$400	-0-
	123459 \$1,200	\$300	\$300	-0-
Total \$1,000	\$3,500	\$1,000	\$1,000	-0-

2

Example 2 illustrates how invoices can be processed once the FULL amount of the recovery has been obtained:

Adjusted FRN and Recovery Dollar Amount	Alternate FRN and Available Dollar Amounts	Invoices Submitted (Form 472 or 474)	USAC Applies to Recovery	USAC Pays
123456 \$1,000	123457 \$1,500	\$600	\$600	-0-
	123458 \$ 800	\$800	\$400	\$ 400
	123459 \$1,200	\$1,200	<u>\$0</u>	\$1,200
Total \$1,000	\$3,500	\$2,600	\$1,000	\$1,600

Note: In the two examples above offsets will occur based when invoices are approved for payment.

* The FCC directed in its October 26, 2000, Order that USAC permit service providers to choose as potential offsets pending funding requests that have not yet been featured in a Funding Commitment Decision Letter (FCDL). Therefore, the column 'Dollars Potentially Available for Offset' may include FRNs in the SLD system for which no decision has yet been issued. If so, those pending FRNs are indicated by an asterisk to the right of the requested discount. If, after SLD review is completed, any such request is reduced or denied, the potential offsets would be reduced and if total potential offsets fall below the 'Total Funds to be Recovered' shown above, the service provider will be required to remit payment for any shortfall.

It appears to us, based on the SLD's denial of our appeal, that the SLD did not even consider the arguments posed and their response does not address our arguments.

In short, our appeal to the SLD simply stated that their original denial was flawed for two reasons; firstly because it was based on an assumption that certain actions took place and secondly because the actions assumed to have occurred, even had they occurred, were not in violation of program rules.

For the SLD to claim that the assumed actions, even if they had occurred, were a violation of program rules amounts to a retroactive re-writing of the program rules.

Please see the attached copy of our original appeal to the SLD.

Based on the arguments that program rules do not provide for the SLD to make denials based on assumptions and that the actions they assumed to have occurred were not in violation of program rules we request that the SLD denial of funding be overturned.

In none of the explanations did the SLD state that any conduct that was prohibited by program rules had occurred and in specific they did not state that any conduct that was viewed as a bidding violation had occurred.

The explanation denies funding based on an assumption that Communication Data and Security Inc. performed certain actions; this assumption is based on SLD's conclusion that there were similarities found in the content of items submitted to the SLD by the schools that have used Communication Data and Security Inc. as a service provider.

The funding denials should be reversed because the decision was flawed in two ways.

First, the funding denials are based on an assumption. The funding decision explanation only states that the similarities cited "indicate" that certain conduct had occurred but does not state that the SLD actually determined the conduct had occurred.

Second, even if the SLD's accusations were assumed to be true, the assumed conduct was not prohibited by program rules and therefore could not have constituted a bidding violation.

All of the activities the SLD assumes to have having taken place, based on the similarities cited, are ones that are service provider neutral and were not prohibited.

Prior to the SLD's change in policy, released on May 13, 2003, which contradicted earlier policy, providing a school with assistance in the creation of a technology plan, request for proposal, providing information about items and services that can be included on a from 470, explanations about program forms (ideas of logical form identifiers to use) and assistance in understanding and responding to selective review questions was permitted, and even encouraged as long as that assistance was service provider neutral.

The actual contents of the items that the SLD felt had similarities are all service provider neutral.

Based on the arguments presented it is respectfully requested that the funding decision be reversed and that new Funding Commitment Decisions Letters are issued.
